

**COSMETIC OIL-IN-WATER PREPARATION AND USE THEREOF  
FOR LIGHT SKINCARE**

**Abstract of the Disclosure**

- 5        The invention is a cosmetic or dermatological preparation designated as a light skincare product of the oil-in-water type, with an emulsifier system, comprising further emulsifiers along with two carbomer thickeners. The invention also includes a method for producing the preparation and using the preparation for cosmetic or medical purposes.
